No questions from Councillors were submitted in accordance with Standing Order 6.

451. CARBON REDUCTION & BIODIVERSITY FUND

Members noted that with the new financial year the Carbon Reduction & Biodiversity Fund stands at £10,000.

In its first year £8,400 was allocated to three projects, Loseley Fields School and Roots for the Future tree planting and environmental education program, the Godalming Nappy Library and the Godalming Cycle Campaign.

In regards to the Godalming Cycle Campaign, the grant of £3,000 was to facilitate a feasibility Study of the Cross Godalming Section of the Guildford to Godalming Greenway. Members noted that from the feasibility study facilitated by the GTC grant, the cycle campaign was successful in a £200,000 bid for Strategic Community Infrastructure Levy Funding in support of this project. Members also noted that the feasibility study considered options for linking the route to the town. In summary, the report recommends that the better option would be to develop a route along The Burys and that the use of The Burys would also make it easier in the future to link the route directly to the town centre than going via the river.

It was requested that the Town Clerk seek permission from WBC to share the feasibility report with Members.

452. PLANNING APPLICATIONS – CONSULTATION

The Committee considered the applications listed on the attached schedule and commented on them as shown in the third column.
