ENHANCEMENTS TO PUBLIC TOILETS

Having re-opened the public toilets in Godalming and Farncombe on the 15 November, Godalming Town Council plans to undertake a refurbishment programme of these facilities. The first stage of the refurbishment programme was agreed by Members of the Council on the 30 November when they agreed to the replacement of the 30-year old hand washing and drying systems with more efficient and hygienic equipment, which will help the council to reduce the operating costs of the facilities.

Cllr Steve Cosser, Chairman of the Farncombe Initiative said, "I am delighted that not only has Godalming Town Council taken on the responsibility for the management of the public toilet facilities in Godalming and Farncombe, but that it also has a vision to ensure that the facilities are brought up to a modern hygienic standard, which can only be good for our community".
