## PRESS RELEASE

**For immediate release**

**October 2014**

### **FARNCOMBE INITIATIVE**

Local residents and councillors got together on Sunday 19<sup>th</sup> October and worked on an area in the centre of Farncombe to help clean it up, plant new plants and undertook a litter-pick. Spades, forks, trowels, rakes and brooms were wielded by the some 15 strong group of people who came and volunteered their time to help make Farncombe a better place. New plants have been installed to bring some colour to the area and bulbs to flower in the spring. Councillor Steve Cosser said "It was great to see local people turning out to support the Farncombe Initiative and help turn our ideas into reality. Other plans for the area that we hope to deliver soon are a Farncombe village sign and a resurfaced pavement area.

A bulb planting day throughout Farncombe is also planned for the near future and volunteers are required for this. Contact Godalming Town Council Tel: 01483 523575 if you can spend a few hours helping with bulb planting in the area.

Ends:

Notes to Editors: Funding has been supplied by Surrey County Council, Waverley Borough Council and Godalming town Council. The Farncombe Initiative meetings are held once a month at Broadwater Park Community Centre.
