Godalming Town Council Performance Indications 2022/3 – 2026/27 – E&P Revised June 22

To monitor effectively how the Council is performing, the following performance indicators (PI's) are suggested as being associated with the Environment & Planning Committee. PI's have been created for all Council Service areas. There are also some indicators that the Council does not have direct control over, such as retail unit vacancies and footfall, but are measured nevertheless as the information is useful in determining the overall 'health' of the town.

Each of the PIs indicated below have a measurable data source and it is suggested that they are reported/published on an annual basis to the community via the Annual Report.
